

Survey of IPv4 Addresses in IETF Standards

Margaret Wasserman

September 18th, 2002

Survey Draft Status

- Long draft that enumerates the use of IPv4 addresses in IETF standards
- Author (Phil Nesser) believes that it requires further review & feedback

Accept as WG Item?

- Who is willing to spend time to review this document, or parts of it, in depth?
- Should we accept this as a WG work item?
 - To be checked on list, of course
